WORK EXPERIENCE

Inedo

2025 - PRESENT

Solutions Engineer (Marketing Team)

- Spearheaded the company's transition from PDF-based guides to a centralized online guide platform by conducting industry research, establishing content standards, building the platform in WordPress, and overseeing content migration and URL redirection strategy.
- Established a new video production framework by researching industry best practices, defining production standards and visual branding, recommending equipment investments, and establishing a scalable video production program.
- Developed and implemented a YouTube channel modernization strategy by auditing existing content, establishing quality standards, conducting competitive analysis, and improving channel branding, content quality, and audience engagement.

Interac

2020 - 2025

Assistant Language Instructor

- Led English language lessons as a T1 instructor, facilitating conversational practice, language activities, educational games, and interactive exercises to develop student communication skills.
- Collaborated with Homeroom Teachers and Japanese Teachers of English (JTEs) as a T2 instructor to support lesson delivery, classroom management, and student engagement.
- Provided individualized support to students during classroom activities and assignments, helping strengthen speaking, listening, reading, and writing proficiency in English.

Freelance

2015 - 2020

Multimedia Content Creator

- Produced and edited professional video and photography content for promotional materials and live events, working independently or as part of a production team.
- Managed end-to-end production workflows, from client consultation and pre-production planning through content capture, post-production, and final delivery.
